

# The next generation **AccountRight** release – important information for MYOB Partners

You and your clients will love using the next generation AccountRight. Why? Because it delivers all the flexibility you've been searching for.

Built on the all new AccountRight .NET platform, the release of AccountRight Standard and AccountRight Plus is our next step on the journey towards a more connected future.

***IMPORTANT! Below are some points you should be aware of before installing and recommending AccountRight Standard and AccountRight Plus.***

## 1. RESTRUCTURED REPORTING SUITE

The brand new AccountRight platform has given us the opportunity to improve every aspect of our software. To provide you with an increased experience and more flexibility with the new versions of AccountRight Standard and Plus, we've streamlined our reporting suite.

The following reports have been taken out of the new version of AccountRight Standard and AccountRight Plus because feedback has told us they're low use reports or you can get the same information from the core set of reports.

Report	Product	Activity
Sales [Activity Summary]	Plus	Sales
Analyse Sales [Item - FY Comparison]	Standard	Sales
Analyse Sales [Activity - FY Comparison]	Standard	Sales
Analyse Sales [Item Multi-Period]	Standard	Sales
Analyse Sales [Activity Multi-Period]	Standard	Sales

Analyse Sales [Activity]	Plus	Sales
Sales History by Salesperson	Standard	Sales
Activities List	Plus	Time Billing
Productivity Hourly Detail	Plus	Time Billing
Activity Slip Detail	Plus	Time Billing
Unprocessed Activity Slips	Plus	Time Billing

## 2. M-POWERED SERVICES INTEGRATION WILL BE AVAILABLE IN 2012

If you or your clients are users of an M-Powered Services M-Powered Invoices, M-Powered Superannuation, M-Powered Payments and M-Powered Bank Statements , we recommend **NOT TO** upgrade at this time.

Why? M-Powered Services includes connectivity with a number of financial institutions that requires a high level of security and robust quality assurance. To ensure we deliver the high standards you and your clients rely on, we plan to release these services on the next generation AccountRight platform in 2012. However, will continue to be supported through the previous version - AccountRight v19.

## 3. CHECK FOR UPDATES (SOFTWARE MANAGER)

The next generation AccountRight is one of our most significant software releases and includes lots of new changes. We want you to be aware of all the important information before you download the new version. As such, we have decided to deactivate the automatic “check for updates” function in the current AccountRight v19. This means you and your clients have full control of downloading the new release of AccountRight Standard and Plus.

#### 4. DATAFILES

Please be aware that the new version of AccountRight Standard and AccountRight Plus includes only one datafile for new purchases. New Clients can purchase additional datafiles if required. Existing Clients will retain their existing allotment of datafiles.

#### 5. ODBC DRIVER

An updated ODBC Driver will not be shipped with the new versions of AccountRight Standard and Plus. However, we are aiming to make it available by the time AccountRight Standard and Plus are released to the market, or shortly thereafter.

For existing Add-on Solution clients, they must contact their Add-on Solution Provider (ie. Developer) before upgrading, as failure to do so may stop the Add-on Solution from working. For new AccountRight Standard and Plus clients, the Add-on Solution Provider will provide the ODBC Driver at the time of supplying their Add-on Solution.

And finally, for existing AccountRight Standard and Plus clients and Partners that don't have a third party Add-on Solution, but use the ODBC Driver for their own purposes, the updated ODBC Driver will be available to them via a Support Note.

#### 6. CHANGES TO OUR MYOB PRODUCT RANGE AND MORE

To ensure that your clients always get the most out of MYOB products and services, updating to the new version of AccountRight will only be available with Cover. Therefore, the below products will no longer be available from 9th November, 2011.

- |  |                 |
|--|-----------------|
| > MYOB AccountRight Plus v19 with Cover  | WIN MPMCA-19-AU |
| > MYOB AccountRight Standard v19 Upgrade | WIN MAUAR-19-AU |
| > MYOB AccountRight Plus v19 Upgrade     | WIN MPUAR-19-AU |

**AccountRight Basics:** an update will be available for download via <https://my.myob.com.au> at the same time as AccountRight Standard and Plus.

AccountRight Basics updates include:

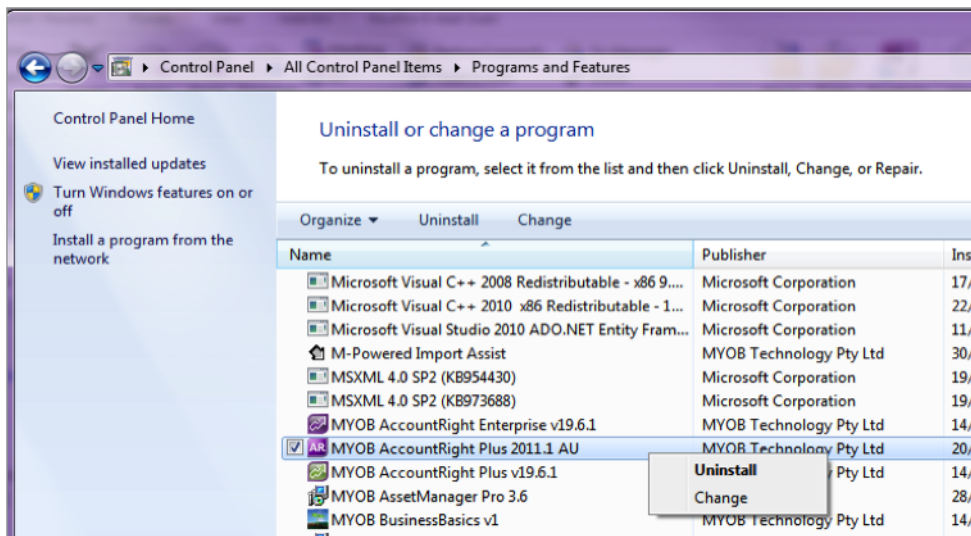

- > The introduction of the user role concept for Partners to assign different users to different access areas of AccountRight Basics
- > An additional audit trail report for users to view the history of any edits to transactions
- > The introduction of the 'library'\* concept, which provides the ability to store data on a network
- > Improved performance and updates of issues that have come up since the new release.

*\* An AccountRight library is a defined location where AccountRight company files are stored. AccountRight knows where your file is, you won't need to navigate to your file when opening or upgrading it, and you don't need to update shortcuts when updates are installed.*

## 7. IF YOU ENCOUNTER SOME PROBLEMS WHEN INSTALLING ACCOUNTRIGHT, FOLLOW THESE INSTRUCTIONS TO CLEAN UP OLD INSTALLATION OF TECH PREVIEWS OR BETAS

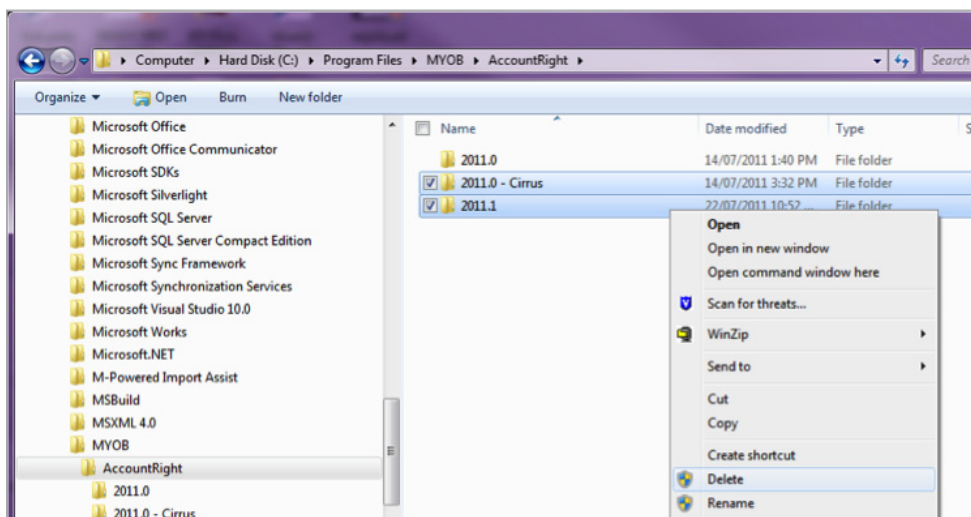

*Note: Screens will vary between operating systems*

- a) Uninstall old versions of the AccountRight 2011.1 software. If you have more than one installation of 2011 uninstall both of them. *Note: You may leave AccountRight Basics 2011 there.*

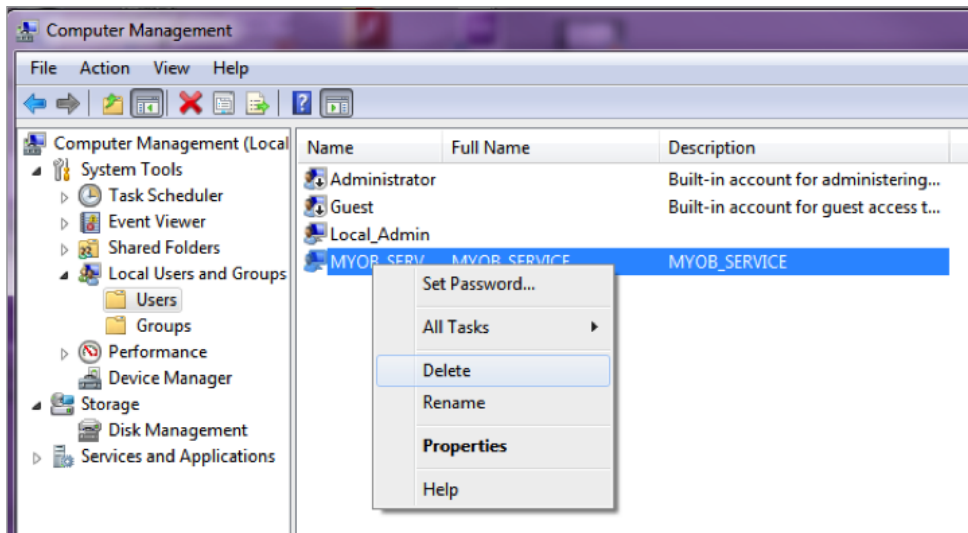

- b) Delete any remaining files in the C:\Program Files\MYOB\AccountRight folder relating to 2011.

*Note: The 2011.0 folder is for AccountRight Basics 2011.*

c) Remove the MYOB\_SERVICE user if it was not removed successfully after install

d) Now install the new version of the product.

## 8. PROFESSIONAL PARTNER DVD (PP DVD)

As we move closer to the endless possibilities of the Cloud, our focus is on delivering MYOB's new product releases, which will be available via download only. Thus, the Professional Partner DVD will not be included in this release. If you encounter difficulties in downloading AccountRight and you are seeking further assistance, click on one of these options:
